

GetawayBloom

Project GetawayBloom

Created by Software Engineers:

- Lee Eugene (Assistant Leader / Code Reviewer)
- Glenn Yong (Document Reviewer)
- Aya Al Sabri (Coordinator)
- Shaun Lim (Team Leader)

App information

- Provide a user friendly app for our client's customers
- Allow users to plan their vacation in a systematic way
- Vacation of any type all around the world
- User friendly interfaces
- Fully online
- Primary usage via Ipad

Logo and background of the app

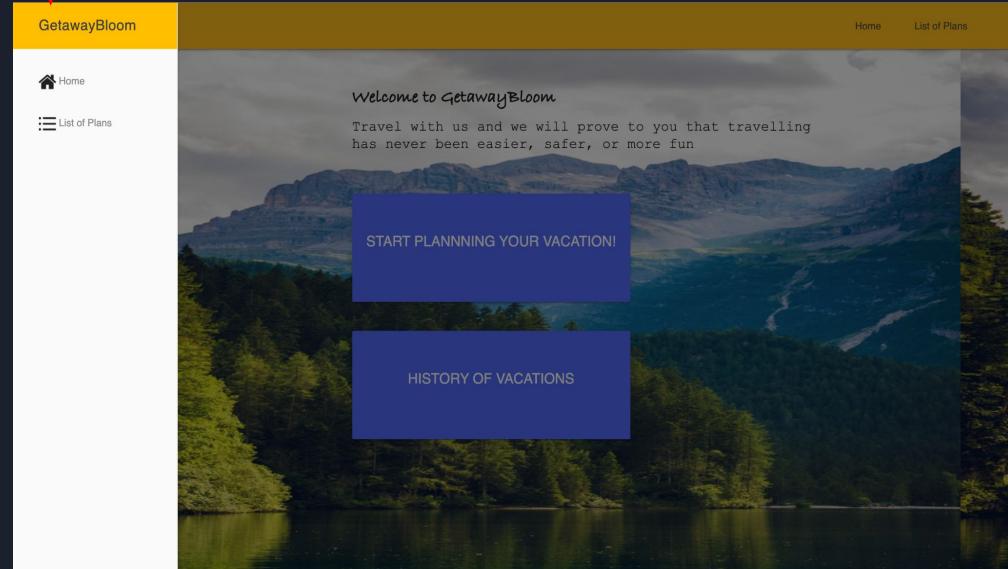

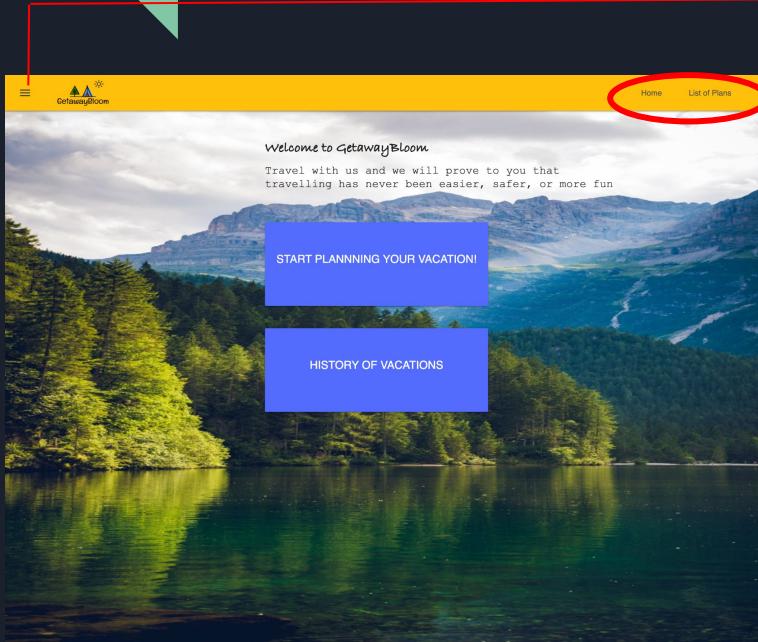

A screenshot of a mobile application interface. The top navigation bar is yellow, featuring three small icons (a triangle, a circle, and a star) and the text "GetawayBloom". On the right side of the bar are links for "Home" and "List of Plans". The main content area has a scenic background of a lake and mountains. At the top left of this area, the text "Welcome to GetawayBloom" is displayed, followed by a promotional message: "Travel with us and we will prove to you that travelling has never been easier, safer, or more fun". Overlaid on the background are two blue rectangular buttons with white text: "START PLANNING YOUR VACATION!" and "HISTORY OF VACATIONS".

There are 2 ways you can be redirected to this page.

Index Page

The image shows the index page of a travel website named "GetawayBloom". The header features a yellow bar with the logo "GetawayBloom" and three small icons (a triangle, a circle, and a sun). On the right side of the header are links for "Home" and "List of Plans". Below the header is a large, scenic photograph of a mountain range with green forests and a lake in the foreground. Overlaid on this image are two blue rectangular buttons. The top button contains the text "START PLANNING YOUR VACATION!". The bottom button contains the text "HISTORY OF VACATIONS" and has a red arrow pointing towards it from the right side.

Current & Future Updates!

Current:

- Support English Language
- All vehicles type uses the same route
- 4 types of Vehicle

Future:

- Support Multi Language (Mandarin, French, etc)
- Routes will be determined depending on the vehicle type
- More vehicle types
- Weather Status Info

Conclusion

- Planning trips
- Friendly
- Flexible
- Informative (current & past infos)
- Reduces carbon footprint
- Accessible anywhere anytime

The End & Thank you
